How to Beat the Tax Man in 3 Easy Steps

PROVIDENCE RI, March 1, 2009:

It's no secret that we are facing hard times. Everyone is trying to find ways of cutting back and saving every penny they can. Here's a great example; Take the super bowl. Have you ever seen a time when an event like this cut back? Not in my time. In years past you could have never call a restaurant in the city that was hosting this mammoth event the day before the game and got a table for two. That was unheard of. This year you practically had the pick of where to eat. Even the hotels were not filled to capacity. How about the poor scalpers, instead of getting \$1800 per ticket, they got \$1300 (if some fool wanted to pay that much). The icing on the cake, Sports Illustrated; they cancelled their super bowl party. This is the magazine that every sports fan will be reading to get the entire scoop on the game and stats. These are just a few examples of the times. In reality we are all in this mess together.

Blame the politicians, blame the war(s), blame the terrorist. Take your pick. When it comes right down to it, the world's economy moves in cycles. There are good times and there are bad. We just happen to be in the bad cycle. How can you help yourself? You need to go back the age old method of trade. **BARTERING !** Bartering was around long before the all mighty dollar. People traded bread for wool or pelts for meat. The beauty of bartering is that ***you don't pay cash for what you want***, you trade for it. Think about it, somebody always has something that somebody else wants. Remember your childhood? Your sibling wanted your sandwich, so you traded for his cookies. That didn't cost you any allowance now did it? You need to start thinking like that again.

If you are sitting around waiting for your government to fix the problem, you are in for a big disappointment. It's going to take years to dig our way out of this mess. You need to take control of your own life now. Try BARTERING. It's a lot easier than you might think. Go to Barterthing.com. to find out more. The process for setting up your account and making an offer to other members couldn't be simpler. [It's a easy as 1, 2, 3.](#)

Since we are in these bad times, MBM Investment Group, Corp, has decided to launch its own "Economic Stimulus Package". All barterers on Barterthing.com are free. This means, until April 15th, the nominal \$2.99 transaction fee will be completely refunded to our members for every barter you make. In addition to the transaction refund, every member is automatically entered into our monthly drawing to win a [\\$1000 Cash Reward Card](#). This rewards card can be used for discounts on hundreds of items ranging from travel to clothing. See out official rules for [more details](#).

We are doing what we can to help in this troubled economy. You can too. Go to www.barterthing.com, create your free profile and begin to enjoy the benefits of bartering. Take control of your life.
